

ANNEXURE-L- INFRASTRUCTURE REQUIREMENT FOR THE SOLUTION

Assuming the approximate No. of Customer Onboarding through the solution are 10 million per annum
The bidders are required to provide the following details to setup and smooth running of the application.

- a) Details of Architecture design and network diagram.
- b) Details of components required for complete Infrastructure.
- c) Sizing / Approximate cost / Technical Flow

Sl. No.	Details	Quantity/No. of Licenses	Approximate Cost
1	Hardware, No of server , load balancer etc.		
2	Software (system software / application software etc)		
3	Network Components		

The above cost sought is only for understanding purpose and same is not the part of TCO

Note: Considering the integration that may be required with on-premise deployment of applications)

Type	Application 1	Application 2	Application 3	Application 4
Application name				
Application instance / Module name				
Environment				
Application tier				
Physical Server / Virtual instance				
H/w Platform (x86 or other please specify)				
Cluster Type (Active-Active/ Active Passive)				
No. of Physical cores				

No. of Virtual Cores				
Memory in (GB)				
Operating system with version				
Database with version				
Database type (Server based / User based / Core based, etc.)				
Usable Storage capacity (GB)				
I/Os preferred				
Load balancer type (Application based / Appliance based / NA)				

ANNEXURE-L- INFRASTRUCTURE REQUIREMENT FOR THE SOLUTION

Link reference	From	To	Primary/Secondary Link	Purpose	Type of Link	Bandwidth (in Mbps)
